Technologies Inc.

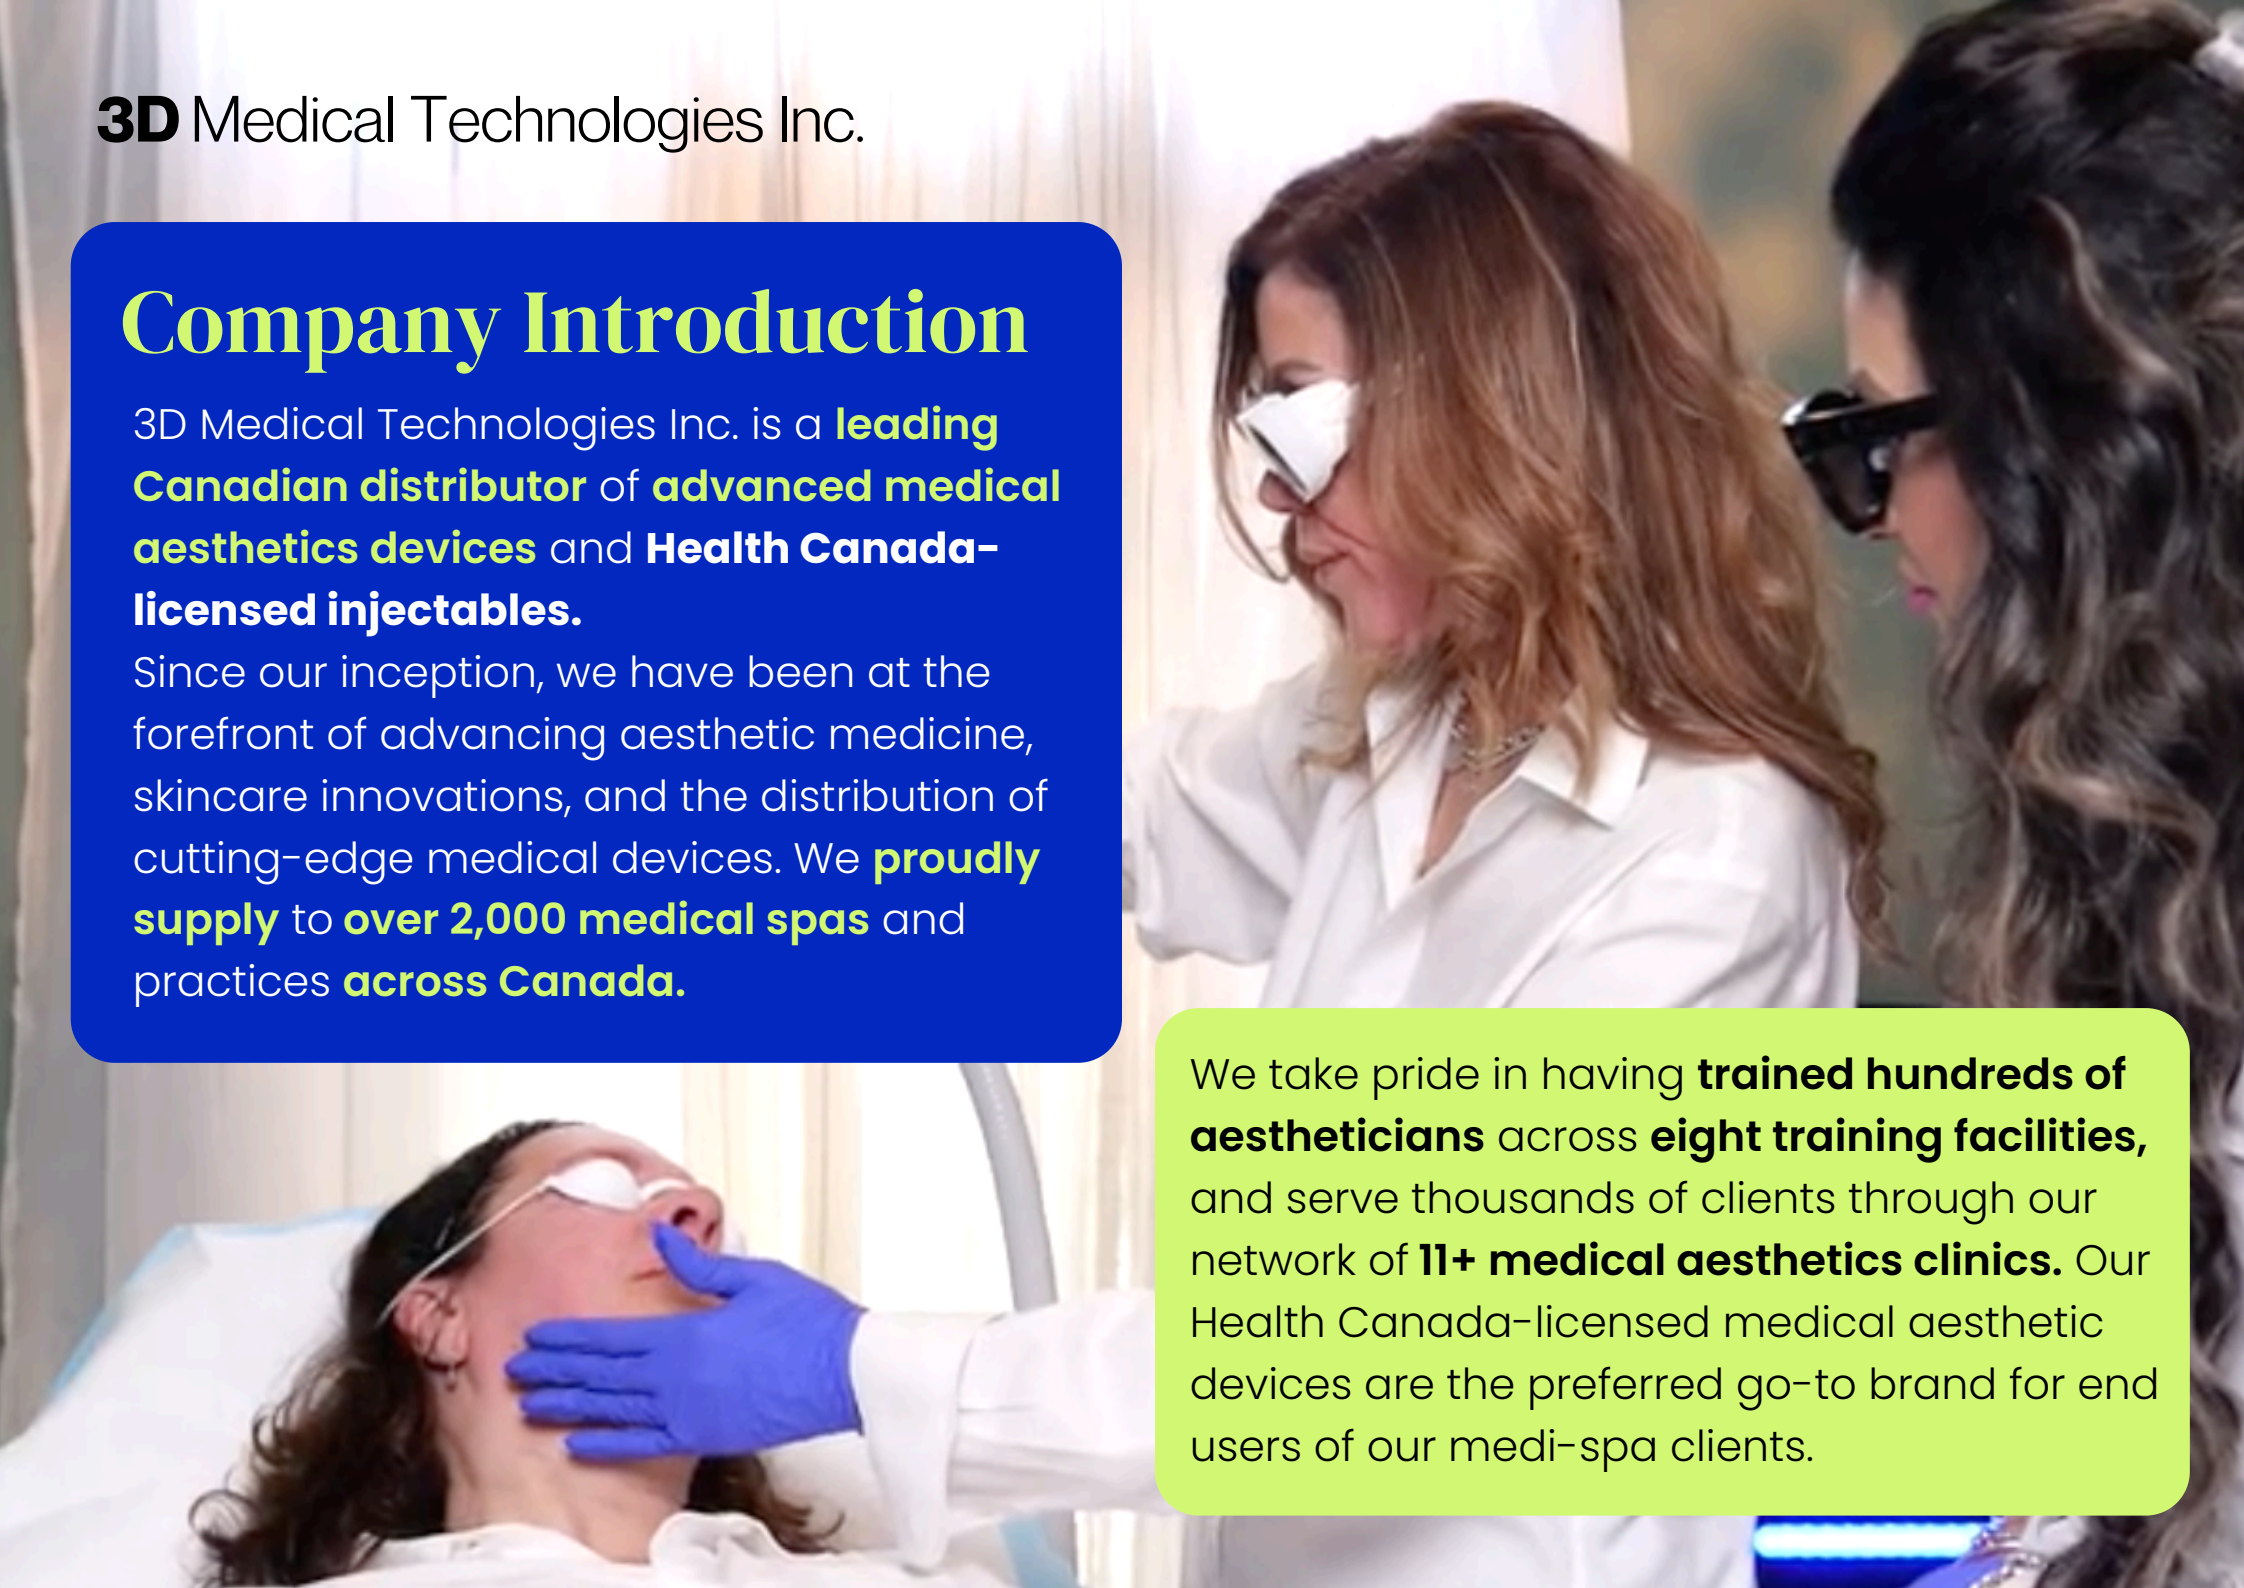

3D Medical Technologies Inc.

Company Introduction

3D Medical Technologies Inc. is a **leading Canadian distributor** of **advanced medical aesthetics devices** and **Health Canada-licensed injectables**.

Since our inception, we have been at the forefront of advancing aesthetic medicine, skincare innovations, and the distribution of cutting-edge medical devices. We **proudly supply** to **over 2,000 medical spas** and practices **across Canada**.

We take pride in having **trained hundreds of aestheticians** across **eight training facilities**, and serve thousands of clients through our network of **11+ medical aesthetics clinics**. Our Health Canada-licensed medical aesthetic devices are the preferred go-to brand for end users of our medi-spa clients.

3D Medical Technologies Inc.

Mission

To empower healthcare professionals and enhance client outcomes through licensed, high-quality aesthetic solutions and comprehensive training.

Vision

To be the leading provider of innovative medical aesthetic products and services, offering a seamless experience from training to treatment to aftercare across Canada and the USA.

Core Services & Offerings

Distribution of Medical Aesthetics Products

We supply a **diverse** range of **high-quality medical aesthetic devices** and **skincare products**.

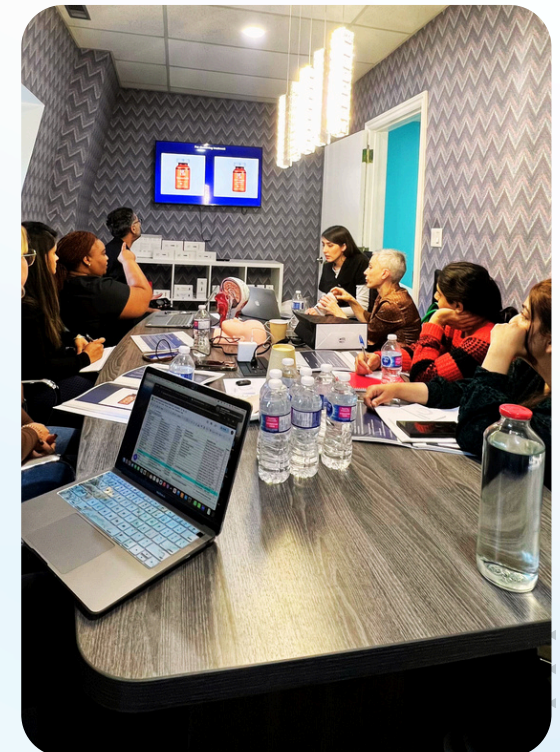

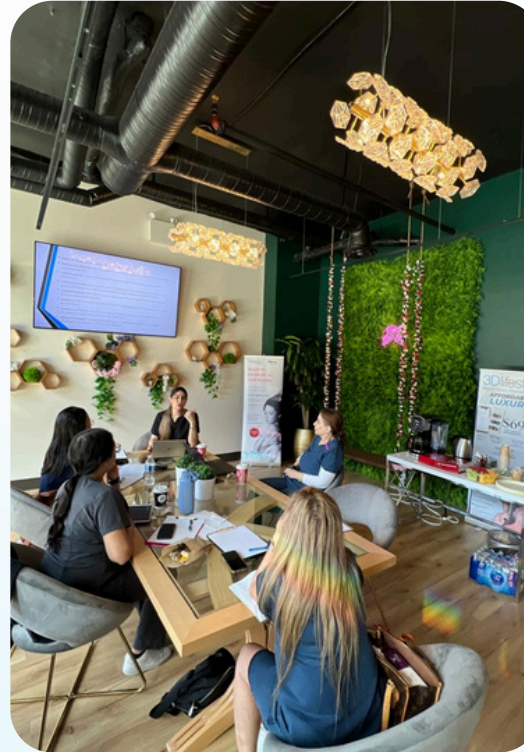

Our portfolio includes cutting-edge technologies that meet the evolving needs of aesthetic practitioners from dermatologists to family physicians, cosmetic nurse injectors and certified aestheticians, **catering** to more than **2,000 medical spas** and **practices across Canada**.

3D Medical Technologies Inc.

Training Facilities

3D Medical Technologies operates **eight dedicated training institutes** where we have trained **hundreds of aesthetic practitioners**. Our training programs are designed to **equip professionals with the latest and trendiest techniques** and knowledge in aesthetic medicine, **ensuring** that they are **equipped to provide exceptional service** to their clients.

3D Medical Technologies Inc.

Aesthetic Medical Clinics

We own 11+ Aesthetic Clinics across Canada and have taken pride to serve over thousands of clients each year with having done over a quarter million treatments. These clinics are equipped with licensed medical practitioners and Health Canada-licensed devices and provide safe and effective treatments under the supervision of qualified professionals. The 3D Lifestyle mobile app is not just a game-changer but a trend-setter for many clinics to obtain 90% client retention.

Health Canada Licensed Devices

Our **proprietary brand** of medical devices is **fully licensed by Health Canada**, ensuring **compliance with national safety standards**. This commitment to quality allows us to offer reliable solutions that practitioners can trust.

3D Medical Technologies Inc.

NAIMA

(North American Institute of Medical Aesthetics)

Website: NAIMAED.ca  @naimaeducation

Overview

NAIMA.ED is Canada's **premier educational platform** dedicated to **training professionals** in the **medical aesthetics** industry. As an accredited institution, NAIMA **offers** a range of **courses** and **certification** programs designed to equip students — primarily **medical practitioners, doctors, nurses, and aestheticians** — with the skills and knowledge to excel in medical aesthetics.

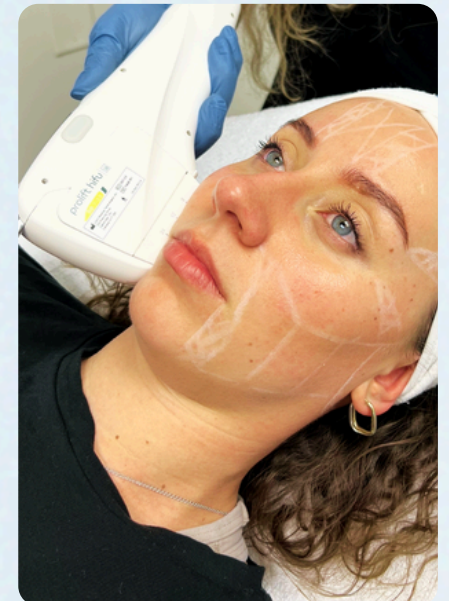

It takes pride in having **top industry educators** from within Canada, as well as some of the opinion leaders in the medical aesthetics landscape. They are invited as visiting faculty to enhance the knowledge base of the institute's graduating students.

3D Medical Technologies Inc.

Medical Aesthetics Courses

NAIMA provides **comprehensive training** in various aspects of medical aesthetics, including **facial aesthetics, injectable treatments, skin rejuvenation, and advanced body contouring techniques** with energy-based devices

3D Medical Technologies Inc.

Certified Programs

All courses are designed to meet the highest industry standards and include hands-on training in modern technologies and techniques. Students receive professional certifications and get a chance to do preceptorships/internships at affiliated clinics where graduating students have jobs waiting.

3D Medical Technologies Inc.

Advanced Techniques

They offer specialized courses in the most advanced and trendiest procedures such as a wide variety of Laser Treatments, PRP (Platelet-Rich Plasma) Therapy, Neuromodulators and Dermal Fillers, as well as Fat-Dissolving Injectables.

Key Offerings

Ongoing Education

NAIMA, for its graduating students, offers the option to keep letting them enhance their skill sets with latest earnings by being part of their educational portal.

Professional Development

The institution emphasizes developing **practical skills** alongside theoretical knowledge **to ensure students are ready to serve clients** with confidence and expertise. It takes pride in hands-on learning more over than theoretical learning.

Target Market

NAIMA's courses are **aimed at individuals** who are **currently practicing aesthetics** and **want to learn the latest techniques or offerings**, as well as to also those who are looking to **start** or **advance their career in medical aesthetics**. Students include aspiring aestheticians, nurses, physicians, surgeons and anyone seeking a professional certification in aesthetic procedures.
